Excellent, thanks. They should register for the webinar even if they can't attend, because the slides will be e:mailed afterward to registrants. A recording will also be available afterward, on the EPA website.

On a separate topic, you should have the documents that you need, to comment during the FR period, correct?

Jackie, I apologize for my delay in getting back to you; I have been out of the country and the 13 hour time difference has really messed up my efficiency in responding to email in a timely manner.

I am concerned that sending these folks something from EPA cold would not be the most effective way to get them engaged. Let us send them the link and other information about the webinar and ask if they would be open to engaging with you on the issue. We can come back to you with more full contact information if appropriate.

Hi Nancy,

We'd like to add the people below to our communications plan for an upcoming webinar. This is part of our outreach process on the federal action plan. Your message indicates that they didn't know you provided contact information - is this still true? Do you want to alert them that we will be sending information on a webinar?

I am looking for their e:mail addresses and if you have them, I would appreciate your providing them. If you think that we, for some reason, shouldn't contact them, let me know that, too.

Thanks.

Jackie

Jackie, you asked me to get you information about the major recycled rubber infill producers whose product is used in fields and playgrounds. I suggest you reach out as follows:

## Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

With the exception of Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] I have not reached out to any of the others on the above list so they are not aware that I am sending you contact information. I am happy to do that if that would be helpful to you.
